We would like to add our project to the consultation. This is Brixham Railway Heritage Trail an accessible trail connecting Churston Station to Brixham. The trail will use the track bed of the Brixham Branch Line. It will bring a long derelict section of disused railway back to a useful life, The project will be developed in stages and we urge the Council to protect the whole route of the railway with appropriate interim status in the Local Plan. We will be happy to submit location information and plans to identify the old track bed.

The first stage of the project will connect Churston Station (Grid ref: SX 894 563) to America Lane (Grid ref: SX 905 563). This will provide a link to Brixham completing the Goodrington – Churston – Brixham corridor as set out in the LCWIP. The LCWIP can be amended with a positive revision when the time comes.

There are real local benefits for the community in providing an off-road route, especially for students cycling to Churston Grammar School.

A visualisation drawing is attached.
